

IS YOUR CONTRACTOR LICENSED TO ROOF?

It's hard to know
who you can trust.
LET RCAT HELP!

WHY YOU SHOULD HIRE A LICENSED ROOFING CONTRACTOR

Did you know that the State of Texas does not have a license or any regulation of the roofing industry? Anyone can claim to be a "roofer" in Texas. During a storm situation especially, there is a large rise in the number of roofing contractors in the area. Unfortunately we also have a high rate of scamming and insurance fraud from "fly-by-night" contractors due to lack of state regulation. The consumers ultimately pay for this with enormous out of pocket expenses including higher insurance premiums and deductibles.

The RCAT Licensed Roofing Contractor program was developed to increase consumer protection and secure public confidence in the roofing industry by elevating the roofing contractor's knowledge, skills and professionalism through voluntary self-regulation.

RCAT takes the pressure off of you by verifying that a contractor has met the standards of a true professional roofing contractor. To become a voluntarily Licensed Roofing Contractor, the applicant must be a principal in a roofing company that has been domiciled in the state of Texas for at least three continuous years AND carry insurance. After a thorough credit and background check, the individual must pass a business and safety knowledge exam plus a residential and/or commercial roofing exam, PLUS maintain eight hours of continuing education each year!

**SPECIFY THAT YOU WANT A LICENSED ROOFING CONTRACTOR.
IT'S THE SMART, PROFESSIONAL WAY TO GO!**

If you have further questions about the RCAT Licensed Roofing Contractor program, need a roofing professional referral, or would like to verify the credentials of a particular roofing contractor, please call or visit our website.
